My 6-Step Translation Process (immigration)

1

Provide your Documents

You or your staff email clear scans of the documents in Spanish (e.g., civil records, declarations, criminal records). If needed, we'll schedule a brief call to clarify the case needs and deadlines.

2

Check

I will review legibility, completeness (stamps, seals, handwritten notes), and confirm what must be translated for the filing so nothing critical is missed.

3

Plan

You will receive a written plan with turnaround time and an itemized price (including certification), aligned with your filing deadlines.

4

Create

I produce a precise Spanish→English legal translation, preserving dates, names, and other factual details. Then I review it thoroughly for consistency and accuracy.

5

Delivery

You receive the certified translation as a PDF (any required format), with my signed statement, ready to print and submit to USCIS or EOIR. If you send documents late in the business day, I can usually deliver smaller sets by the time you open the following morning, thanks to the time difference.

6

Approval

You review and, if needed, I make reasonable clarifications or minor adjustments at no extra cost.

Start with one test matter

- Send 1 typical set (e.g., declaration + a few civil documents).
- I confirm the fee and delivery date in writing.
- You receive a certified translation ready for filing. This lets you evaluate my work with minimal risk.
